CARM for SALE-Containing 524 acres, situate

FOR SALE—A FARM containing 112 acres, situated in New-Jersey, one hour's ride by railroad, near a depot; 26 acres large timber land, balance under a high state of cultivation; has a good dwelling-house, barns and other outbuildings. For particulars, apply to T. J. FOED, No. 39 Courtlandt-st.

THE ILLINOIS CENTRAL RAILROAD COMPANY
IS NOW PREPARED TO SELL OVER TWO MILLIONS OF ACRES PRAIRIE, FARM AND WOOD LANDS

to suit purchasers, on long credits and at low rates of interest.

They were granted by the Government to encourage the building of this Railroad, which runs from the extreme north to the extreme south of the State of Illinois. It pusses from the end, through the richest and most fertile Prairies of the State, dotted here and there with magnificent Oak Graves. building of this Railroad, which runs from the extreme north to the extreme south of the State of Illinois. If passes frompend to end, through the richest and most fertile Prairies of the State, dotted here and there with magnificent Oak Groves. The recent opening of nearly 600 miles of this road throws open the lands to cultivation. They are scattered from one to fifteen indies on each side of it, through its entire length.

The soil is a dark, rich mold, from one to fifteen depth, its gently reiling, and peculiarly fitted for graning cattle and sheep, and the cultivation of wheat, Indian corn, &c.

The first crop of Indian corn planted on the newly broken prairie, usually pays the cost of phorting and sometimes fencing. Wheat saws on new turned sod is sure to yield very large profits. One man with a plow and two yoke of oxen, will break one-and shall to two stresper days. Contracts can be made for breaking, ready for corn or wheat, at \$2 to \$2.50 per acres. By judicious management farms may be broken and fenced the first, and under a high state of cultivation the second year.

The larger yield on the cheap lands of Illinots, over high-priced lands in the Eastern and Middle States, is known to be much more than sufficient to pay the difference of transportation to the Eastern market. The rapid increase and growth of fourishing towns and villages along the line of this road afford a growing home demand for farm produce.

Coal and wool are delivered along the line of this road afford a growing home demand for farm produce.

Coal and wool are delivered along the line of this road afford a growing home demand for farm produce.

Parties having in view lows, Kansas, Nebraska or Minnesota for their future home, should take into consideration that the conveniencies of transporting grain and produce from farms on the line of the Illinois Central Railroad, direct to the great Fastern market its sufficient of the faller to pay the investment at from \$10 to \$10 per acre higher than in Government lands in lows. In other wo

they are paid for and a deed of conveyance granted to the purchaser.

INTEREST WILL BE CHARGED AT OALY TWO PER CENT PER ANUM.

As accurity for the performance of the contract, the first two years interest must be paid in advance, but it must be not derstood that one-tenth of the land purchased shall yearly be brought under cultivation. Longer credits at six per cent per annum may be negotiated by special application. Twenty per cent from the credit price will be deducted for cash, in which case the Cumpany's Construction Bonds will be received as cash. It is believed that the price, long credit, and low rates of interest charged for these lands, will enable a man with a few hundred dollars in cash and ordinary industry, to make himself independent before all the purchase money becomes due. Meantime the rapid settlement of the country will probably have increased their value four or five fold. When required, an experienced person will accompany applicants to give information and aid in selecting lands.

Large Plats, showing the precise location of the lands throughout the State, may be seen at the office. Small pocket Plats, as a guide to any part of the Company's lands, and Pamphiets, containing interesting information, accompanied by numerous letters from respectable farmers throughout the State, may be side a enablest of the Company. No. 52 Michicontaining interesting interesting and a partial state, may had on application at the office of the Company, No. 32 Migan-at., Chicago. CHARLES M. DUPUY, Js., Land Agent Illinois Central Railroad Company

# Instruction.
